SAM MATTERN  
Columbus, Ohio**

Sam graduated from DeVry University with a Bachelor’s in Computer Engineering Technology in 2005. He joined Spectrum Reporting’s video department soon after graduation and apprenticed under CLVS Tom Rees.

Because of his computer background, he became indispensable for troubleshooting realtime connections and daily-copy setups. Thankfully, PCMCIA-to-serial laptop cards, adapters, and baud rates were eventually replaced by CaseViewNet so that Sam could focus on other areas of the business.

This included trial presentation, videoconferencing, exhibit processing, secure file delivery, and even a witness transcript-review platform. He also started presenting the different technologies to law firms, paralegal organizations, and even to students, all of this while still being a full-time videographer.

After ten years in the field, in 2015 Sam became the Operations Manager for Spectrum Reporting. Though he still fills in for depositions and trials as needed, he now focuses on new business development, staff and client support, and client relations.

Sam married Sanja in 2012 and they have two young children: Stefan, a preschooler, and Maja, a baby. Sam and Sanja love international travel and have visited France, Croatia, Slovenia, Montenegro, Serbia, North Macedonia, and most recently Japan.

**IMMEDIATE PAST PRESIDENT (One-Year Term Expiring 2023):  
MARJORIE PETERS, FAPR, RMR, CRR,  
Realtime Systems Administrator  
Alexandria, Virginia**

2022 will mark Marjorie's 36th year as a court reporter. Beginning in Erie, PA, in 1986, Marjorie's career has covered all specialties of reporting: 9 years as an official reporter; 14 years in CART/Captioning both as an in-house staff captioner, as well as an independent contractor, providing remote captioning, as well as on-site sports stadiums, convention venues and medical symposiums; followed by 12 years in freelance reporting, first as an employee, and then starting her own freelance business in Pittsburgh, PA; and as of 2019, she lives in Alexandria, VA, covering the DC/MD/VA area as an independent freelance reporter.

Marjorie feels her varied experience in these roles has prepared her to engage with both reporting agencies and their staff more effectively, as well as their law firm clients. She understands the entire litigation process from start to finish -- not only the importance of an accurate record but also the full breadth of services that reporting agencies offer their clients. Marjorie believes that technology has advanced the reporting profession in a compelling way for the reporter and the hiring firm, providing tools to serve client needs in all three reporting specialties.

Marjorie has served on the PCRA Board of Directors, has been active on various NCRA committees, and has presented numerous seminars on behalf of both Associations. She currently serves as a Trustee of the National Court Reporters Foundation. In 2018, she received NCRA's Santo Aurelio Award for Altruism. She is a long-time supporter of the court reporting program at Community College of Allegheny County in Pittsburgh through teaching and curriculum development. Marjorie continues to actively support the Light of Life Rescue Mission based in Pittsburgh, PA, and, now a resident of Alexandria, VA, she plans to identify a local organization to support, as well.

In addition to Marjorie's captioning experience and expertise in reporting complex litigation, she is proud to be a part of the GTMO team in Guantanamo Bay, Cuba – an assignment she finds to be both challenging and rewarding. She is proud to be a part of the GTMO team which, as she describes, laughs as hard as it works.

Since attending her first STAR convention, Marjorie has viewed STAR members as positive, forward-looking court reporting professionals dedicated to bringing the best technology, customer service, and business practices to stenographers and agencies. She looks forward to committing her time, experience, and energy in furtherance of the goals of STAR and its members.

When Marjorie is not serving 14-year-old calico, Hannah, you will find her cooking and enjoying wine, or hopefully, in the great outdoors, most likely cycling, or if she is lucky, on a horse.
